Target Property:

US 281 DEIS US 281 SAN ANTONIO, Bexar County, Texas 78261

Prepared For:

Jacobs-Houston

Order #: 7791

Job #: 17860

Date: 05/10/2010

#### TARGET PROPERTY SUMMARY

US 281 DEIS US 281

SAN ANTONIO, Bexar County, Texas 78261

USGS Quadrangle: Bulverde, TX
Target Property Geometry: Corridor

Target Property Longitude(s)/Latitude(s):

(-98.446855, 29.712818), (-98.452252, 29.705447), (-98.451481, 29.698747), (-98.453794, 29.689366), (-98.454565, 29.681325), (-98.451481, 29.673284), (-98.449939, 29.665914), (-98.450710, 29.655193), (-98.449168, 29.651843), (-98.452252, 29.646482), (-98.464589, 29.622360), (-98.466902, 29.618340), (-98.468444, 29.608959)

County/Parish Covered:

Bexar (TX), Comal (TX)

Zipcode(s) Covered: **Bulverde TX: 78163** 

San Antonio TX: 78232, 78258, 78259, 78260, 78261

State(s) Covered:

TX

\*Target property is located in Radon Zone 3.

Zone 3 areas have a predicted average indoor radon screening level less than 2 pCi/L.

Your site is located within Bexar County, which is known to contain karst habitat. Please contact Celeste Brancel at celeste.brancel@tpwd.state.tx.us or 512-912-7021 for more information regarding the possibility of additional requirements for your project.

**AIRSAFS** 

Aerometric Information Retrieval System / Air Facility Subsystem

**VERSION DATE: 3/2009** 

The United States Environmental Protection Agency (EPA) modified the Aerometric Information Retrieval System (AIRS) to a database that exclusively tracks the compliance of stationary sources of air pollution with EPA regulations: the Air Facility Subsystem (AFS). Since this change in 2001, the management of the AIRS/AFS database was assigned to EPA's Office of Enforcement and Compliance Assurance.

BF

**Brownfields Management System** 

**VERSION DATE: 4/2010** 

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. The United States Environmental Protection Agency maintains the activities, including grantee assessment, cleanup and redevelopment, of the various Brownfield grant programs through the Brownfields Management System database.

**BRS** 

Biennial Reporting System

**VERSION DATE: 1/2003** 

The United States Environmental Protection Agency (EPA), in cooperation with the States, biennially collects information regarding the generation, management, and final disposition of hazardous wastes regulated under the Resource Conservation and Recovery Act of 1976 (RCRA), as amended. The purpose of this report is to communicate the findings of EPA's Biennial Reporting System (BRS) data collection efforts to the public, government agencies, and the regulated community.

Currently, the EPA states that data collected between 1991 and 1997 was originally a part of the defunct Biennial Reporting System and is now incorporated into the RCRAInfo data system.

CDL

Clandestine Drug Laboratory Locations

**VERSION DATE: 8/2009** 

The U.S. Department of Justice ("the Department") provides this information as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments. The Department does not establish, implement, enforce, or certify compliance with clean-up or remediation standards for contaminated sites; the public should contact a state or local health department or environmental protection agency for that information.

**CERCLIS** 

Comprehensive Environmental Response, Compensation & Liability Information System

**VERSION DATE: 2/2010** 

CERCLIS is the repository for site and non-site specific Superfund information in support of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). This United States Environmental Protection Agency database contains an extract of sites that have been investigated or are in the process of being investigated for potential environmental risk.

**DNPL** 

**Delisted National Priorities List** 

**VERSION DATE: 2/2010** 

This database includes sites from the United States Environmental Protection Agency's Final National Priorties List (NPL) where remedies have proven to be satisfactory or sites where the original analyses were inaccurate, and the site is no longer appropriate for inclusion on the NPL, and final publication in the Federal Register has occurred.

**DOCKETS** 

**EPA Docket Data** 

**VERSION DATE: 12/2005** 

The United States Environmental Protection Agency Docket data lists Civil Case Defendants, filing dates as far back as 1971, laws broken including section, violations that occurred, pollutants involved, penalties assessed and superfund awards by facility and location.

DOD

Department of Defense Sites

**VERSION DATE: 12/2005** 

This information originates from the National Atlas of the United States Federal Lands data, which includes lands owned or administered by the Federal government. Army DOD, Army Corps of Engineers DOD, Air Force DOD, Navy DOD and Marine DOD areas of 640 acres or more are included.

EC

Federal Engineering Institutional Control Sites

**VERSION DATE: 3/2010** 

This database includes site locations where Engineering and/or Institutional Controls have been identified as part of a selected remedy for the site as defined by United States Environmental Protection Agency official remedy decision documents. A site listing does not indicate that the institutional and engineering controls are currently in place nor will be in place once the remedy is complete; it only indicates that the decision to include either of them in the remedy is documented as of the completed date of the document. Institutional controls are actions, such as legal controls, that help minimize the potential for human exposure to contamination by ensuring appropriate land or resource use. Engineering controls include caps, barriers, or other device engineering to prevent access, exposure, or continued migration of contamination.

**ERNS** Emergency Response Notification System

**VERSION DATE: 12/2009** 

This National Response Center database contains data on reported releases of oil, chemical, radiological, biological, and/or etiological discharges into the environment anywhere in the United States and its territories. The data comes from spill reports made to the U.S. Environmental Protection Agency, U.S. Coast Guard, the National Response Center and/or the U.S. Department of Transportation.

FRS Facility Registry System

**VERSION DATE: 6/2009** 

The United States Environmental Protection Agency's Office of Environmental Information (OEI) developed the Facility Registry System (FRS) as the centrally managed database that identifies facilities, sites or places subject to environmental regulations or of environmental interest. The Facility Registry System replaced the Facility Index System or FINDS database.

**FUDS** Formerly Used Defense Sites

**VERSION DATE: 9/2009** 

The 2008 FUDS inventory includes properties previously owned by or leased to the United States and under Secretary of Defense jurisdiction. The remediation of these properties is the responsibility of the Department of Defense.

HMIRS Hazardous Materials Incident Reporting System

**VERSION DATE: 4/2010** 

The HMIRS database contains unintentional hazardous materials release information reported to the U.S. Department of Transportation.

ICIS Integrated Compliance Information System (formerly DOCKETS)

**VERSION DATE: 3/2009** 

ICIS is a case activity tracking and management system for civil, judicial, and administrative federal Environmental Protection Agency enforcement cases. ICIS contains information on federal administrative and federal judicial cases under the following environmental statutes: the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act, the Emergency Planning and Community Right-to-Know Act - Section 313, the Toxic Substances Control Act, the Federal Insecticide, Fungicide, and Rodenticide Act, the Comprehensive Environmental Response, Compensation, and Liability Act, the Safe Drinking Water Act, and the Marine Protection, Research, and Sanctuaries Act.

ICISNPDES Integrated Compliance Information System National Pollutant Discharge Elimination

VERSION DATE: 3/2009

ICIS-NPDES is an information management system maintained by the United States Environmental Protection Agency's Office of Compliance to track permit compliance and enforcement status of facilities regulated by the National Pollutant Discharge Elimination System (NPDES) under the Clean Water Act. ICIS-NPDES is designed to support the NPDES program at the state, regional, and national levels.

**LUCIS** Land Use Control Information System

**VERSION DATE: 9/2006** 

The LUCIS database is maintained by the U.S. Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

MLTS Material Licensing Tracking System

**VERSION DATE: 2/2010** 

MLTS is a list of approximately 8,100 sites which have or use radioactive materials subject to the United States Nuclear Regulatory Commission (NRC) licensing requirements.

NFRAP No Further Remedial Action Planned Sites

**VERSION DATE: 2/2010** 

This database includes sites which have been determined by the United States Environmental Protection Agency, following preliminary assessment, to no longer pose a significant risk or require further activity under CERCLA. After initial investigation, no contamination was found, contamination was quickly removed or contamination was not serious enough to require Federal Superfund action or NPL consideration.

NLRRCRAC No Longer Regulated RCRA Corrective Action Facilities

**VERSION DATE: 2/2010** 

This database includes RCRA Corrective Action facilities that are no longer regulated by the United States Environmental Protection Agency or do not meet other RCRA reporting requirements.

NLRRCRAG No Longer Regulated RCRA Generator Facilities

**VERSION DATE: 2/2010** 

This database includes RCRA Generator facilities that are no longer regulated by the United States Environmental Protection Agency or do not meet other RCRA reporting requirements. This listing includes facilities that formerly generated hazardous waste.

**NLRRCRAT** 

No Longer Regulated RCRA Non-CORRACTS TSD Facilities

**VERSION DATE: 2/2010** 

This database includes RCRA Non-Corrective Action TSD facilities that are no longer regulated by the United States Environmental Protection Agency or do not meet other RCRA reporting requirements. This listing includes facilities that formerly treated, stored or disposed of hazardous waste.

**NPDES** 

National Pollutant Discharge Elimination System

**VERSION DATE: 4/2007** 

Information in this database is extracted from the Water Permit Compliance System (PCS) database which is used by United States Environmental Protection Agency to track surface water permits issued under the Clean Water Act. Refer to the PCS and/or ICIS-NPDES database as source of current data.

**NPL** 

National Priorities List

**VERSION DATE: 2/2010** 

This database includes United States Environmental Protection Agency (EPA) National Priorities List sites that fall under the EPA's Superfund program, established to fund the cleanup of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action.

ODI

Open Dump Inventory

**VERSION DATE: 6/1985** 

The open dump inventory was published by the United States Environmental Protection Agency. An "open dump" is defined as a facility or site where solid waste is disposed of which is not a sanitary landfill which meets the criteria promulgated under section 4004 of the Solid Waste Disposal Act (42 U.S.C. 6944) and which is not a facility for disposal of hazardous waste. This inventory has not been updated since June 1985.

**PADS** 

PCB Activity Database System

**VERSION DATE: 2/2010** 

The PCB Activity Database System (PADS) is used by the United States Environmental Protection Agency to monitor the activities of polychlorinated biphenyls (PCB) handlers.

**PCS** 

Permit Compliance System

**VERSION DATE: 3/2009** 

The Permit Compliance System is used in tracking enforcement status and permit compliance of facilities controlled by the National Pollutant Discharge Elimination System (NPDES) under the

Clean Water Act and is maintained by the United States Environmental Protection Agency's Office of Compliance. PCS is designed to support the NPDES program at the state, regional, and national levels.

**PNPL** 

**Proposed National Priorities List** 

**VERSION DATE: 2/2010** 

This database contains sites proposed to be included on the National Priorities List (NPL) in the Federal Register. The United States Environmental Protection Agency investigates these sites to determine if they may present long-term threats to public health or the environment.

**RCRAC** 

Resource Conservation & Recovery Act - Corrective Action Facilities

**VERSION DATE: 2/2010** 

This database includes hazardous waste sites listed with corrective action activity in the RCRAInfo system. The Corrective Action Program requires owners or operators of RCRA facilities (or treatment, storage, and disposal facilities) to investigate and cleanup contamination in order to protect human health and the environment. The United States Environmental Protection Agency defines RCRAInfo as the comprehensive information system which provides access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS).

**RCRAG** 

Resource Conservation & Recovery Act - Generator Facilities

**VERSION DATE: 2/2010** 

This database includes sites listed as generators of hazardous waste (large, small, and exempt) in the RCRAInfo system. See RCRA Description page for more information. The United States Environmental Protection Agency defines RCRAInfo as the comprehensive information system which provides access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS).

**RCRAT** 

Resource Conservation & Recovery Act - Treatment, Storage & Disposal Facilities

**VERSION DATE: 2/2010** 

This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste in the RCRAInfo system. The United States Environmental Protection Agency defines RCRAInfo as the comprehensive information system which provides access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and

the Biennial Reporting System (BRS).

**RODS** Record of Decision System

**VERSION DATE: 5/2010** 

These decision documents maintained by the United States Environmental Protection Agency describe the chosen remedy for NPL (Superfund) site remediation. They also include site history, site description, site characteristics, community participation, enforcement activities, past and present activities, contaminated media, the contaminants present, and scope and role of response action.

SFLIENS CERCLIS Liens

**VERSION DATE: 2/2010** 

A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which United States Environmental Protection Agency has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties. This database contains those CERCLIS sites where the Lien on Property action is complete.

SSTS Section Seven Tracking System

**VERSION DATE: 12/2006** 

The United States Environmental Protection Agency tracks information on pesticide establishments through the Section Seven Tracking System (SSTS). SSTS records the registration of new establishments and records pesticide production at each establishment. The Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires that production of pesticides or devices be conducted in a registered pesticide-producing or device-producing establishment. ("Production" includes formulation, packaging, repackaging, and relabeling.)

TRI Toxics Release Inventory

VERSION DATE: 12/2007

The Toxics Release Inventory, provided by the United States Environmental Protection Agency, includes data on toxic chemical releases and waste management activities from certain industries as well as federal facilities. This inventory contains information about the types and amounts of toxic chemicals that are released each year to the air, water, and land as well as information on the quantities of toxic chemicals sent to other facilities for further waste management.

TSCA Toxic Substance Control Act Inventory

VERSION DATE: 12/2002

The Toxic Substances Control Act (TSCA) was enacted in 1976 to ensure that chemicals manufactured, imported, processed, or distributed in commerce, or used or disposed of in the

United States do not pose any unreasonable risks to human health or the environment. TSCA section 8(b) provides the United States Environmental Protection Agency authority to "compile, keep current, and publish a list of each chemical substance that is manufactured or processed in the United States." This TSCA Chemical Substance Inventory contains non-confidential information on the production amount of toxic chemicals from each manufacturer and importer site.

APAR Affected Property Assessment Reports

**VERSION DATE: 1/2010** 

As regulated by the TCEQ, an Affected Property Assessment Report is required when a person is addressing a release of chemical of concern (COC) under 30 TAC Chapter 350, the Texas Risk Reduction Program (TRRP). The purpose of the APAR is to document all relevant affected property information to identify all release sources and COCs, determine the extent of all COCs, identify all transport/exposure pathways, and to determine if any response actions are necessary. The Texas Administrative Code Title 30 §350.4(a)(1) defines affected property as the entire area (i.e. on-site and off-site; including all environmental media) which contains releases of chemicals of concern at concentrations equal to or greater than the assessment level applicable for residential land use and groundwater classification.

**BSA** Brownfields Site Assessments

**VERSION DATE: 4/2010** 

The BSA database includes relevant information on contaminated Brownfields properties that are being cleaned.

CALF Closed & Abandoned Landfill Inventory

VERSION DATE: 11/2005

TCEQ, under a contract with Texas State University, and in cooperation with the 24 regional Council of Governments in the State, has located over 4,000 closed and abandoned municipal solid waste landfills throughout Texas. This listing contains "unauthorized sites". Unauthorized sites have no permit and are considered abandoned. The information available for each site varies in detail.

DCR Dry Cleaner Registration Database

**VERSION DATE: 4/2010** 

The DCR listing includes dry cleaning drop stations and facilities registered with the Texas Commission on Environmental Quality.

**GWCC** Groundwater Contamination Cases

**VERSION DATE: 12/2008** 

This report contains a listing of groundwater contamination cases which were documented for the 2008 calendar year. Texas Water Code, Section 26.406 requires the annual report to describe the current status of groundwater monitoring activities conducted or required by each agency at regulated facilities or associated with regulated activities. The agencies reporting these contamination cases include the Texas Commission on Environmental Quality, Railroad Commission of Texas, Texas Alliance of Groundwater Districts, and Department of State Health

Services.

**HISTGWCC** 

Historic Groundwater Contamination Cases

**VERSION DATE: NR** 

This historic report contains all agency groundwater contamination cases documented from 1994 to 2007. The agencies that reported these contamination cases included the Texas Commission on Environmental Quality, Railroad Commission of Texas, Texas Alliance of Groundwater Districts, and Department of State Health Services.

**IHW** 

Industrial and Hazardous Waste Sites

**VERSION DATE: 3/2010** 

Owner and facility information is included in this database of permitted and non-permitted industrial and hazardous waste sites. Industrial waste is waste that results from or is incidental to operations of industry, manufacturing, mining, or agriculture. Hazardous waste is defined as any solid waste listed as hazardous or possesses one or more hazardous characteristics as defined in federal waste regulations.

**IOP** 

Innocent Owner / Operator Database

**VERSION DATE: 4/2010** 

Texas Innocent Owner / Operator (IOP) provides a certificate to an innocent owner or operator if their property is contaminated as a result of a release or migration of contaminants from a source or sources not located on the property, and they did not cause or contribute to the source or sources of contamination.

**LIENS** 

TCEQ Liens

**VERSION DATE: 4/2010** 

Liens filed upon State and/or Federal Superfund Sites by the Texas Commission on Environmental Quality.

**LPST** 

Leaking Petroleum Storage Tanks

**VERSION DATE: 4/2010** 

The Leaking Petroleum Storage Tank listing is derived from the Petroleum Storage Tank (PST) database and is maintained by the Texas Commission on Environmental Quality (TCEQ). This listing includes aboveground and underground storage tank facilities with reported leaks.

**MSD** 

**Municipal Setting Designations** 

**VERSION DATE: 2/2009** 

TCEQ defines an MSD as an official state designation given to property within a municipality or its extraterritorial jurisdiction that certifies that designated groundwater at the property is not used as potable water, and is prohibited from future use as potable water because that groundwater is contaminated in excess of the applicable potable-water protective concentration level. The prohibition must be in the form of a city ordinance, or a restrictive covenant that is enforceable by the city and filed in the property records. The MSD property can be a single property, multi-property, or a portion of property.

**MSWLF** 

Municipal Solid Waste Landfill Sites

**VERSION DATE: 3/2010** 

Sites listed within a solid waste landfill database may include active landfills and inactive landfills, where solid waste is treated or stored.

NOV

Notice of Violations

VERSION DATE: 12/2009

This database containing Notice of Violations (NOV) is maintained by the Texas Commission on Environmental Quality. An NOV is a written notification that documents and communicates violations observed during an inspection to the business or individual inspected.

**PIHW** 

Permitted Industrial Hazardous Waste Sites

**VERSION DATE: 3/2010** 

Owner and facility information is included in this database of all permitted industrial and hazardous waste sites. Industrial waste is waste that results from or is incidental to operations of industry, manufacturing, mining, or agriculture. Hazardous waste is defined as any solid waste listed as hazardous or possesses one or more hazardous characteristics as defined in federal waste regulations. Permitted IHW facilities are regulated under 30 Texas Administrative Code Chapter 335 in addition to federal regulations.

**PST** 

Petroleum Storage Tanks

**VERSION DATE: 4/2010** 

The Petroleum Storage Tank database is administered by the TCEQ (Texas Commission on Environmental Quality). Both Underground storage tanks (USTs) and Aboveground storage tanks (ASTs) are included in this report. Petroleum Storage Tank registration has been a requirement with the TCEQ since 1986.

**RRCVCP** 

Railroad Commission VCP and Brownfield Sites

**VERSION DATE: 3/2010** 

According to the Railroad Commission of Texas, their Voluntary Cleanup Program (RRC-VCP) provides an incentive to remediate Oil & Gas related pollution by participants as long as they did not cause or contribute to the contamination. Applicants to the program receive a release of liability to the state in exchange for a successful cleanup.

**RWS** 

Radioactive Waste Sites

**VERSION DATE: 7/2006** 

This TCEQ database contains all sites in the State of Texas that have been designated as Radioactive Waste sites.

SF

State Superfund Sites

**VERSION DATE: 1/2010** 

The state Superfund program mission is to remediate abandoned or inactive sites within the state that pose an unacceptable risk to public health and safety or the environment, but which do not qualify for action under the federal Superfund program (NPL - National Priority Listing). Information in this database includes any recent developments and the anticipated action for these sites.

SIEC01

State Institutional/Engineering Control Sites

**VERSION DATE: 4/2010** 

The Texas Risk Reduction Program (TRRP) requires the placement of institutional controls (e.g., deed notices or restrictive covenants) on affected property in different circumstances as part of completing a response action. In its simplest form, an institutional control (IC) is a legal document that is recorded in the county deed records. In certain circumstances, local zoning or ordinances can serve as an IC. This listing may also include locations where Engineering Controls are in effect, such as a cap, barrier, or other engineering device to prevent access, exposure, or continued migration of contamination.

**SPILLS** 

Spills Listing

VERSION DATE: 12/2009

This Texas Commission on Environmental Quality (TCEQ) database includes releases of hazardous or potentially hazardous materials into the environment.

TIERII Tier I I Chemical Reporting Program Facilities

**VERSION DATE: 12/2007** 

The Texas Tier II Chemical Reporting Program in the Department of State Health Services (DSHS) is the state repository for EPCRA-required Emergency Planning Letters (EPLs), which are one-time notifications to the state from facilities that have certain extremely hazardous chemicals in specified amounts. The Program is also the state repository for EPCRA/state-required hazardous chemical inventory reports called Texas Tier Two Reports. This data contains those facility reports for the 2005 through the 2007 calendar years.

VCP Voluntary Cleanup Program Sites

**VERSION DATE: 4/2010** 

The Texas Voluntary Cleanup Program (VCP) provides administrative, technical, and legal incentives to encourage the cleanup of contaminated sites in Texas. Since all non-responsible parties, including future lenders and landowners, receive protection from liability to the state of Texas for cleanup of sites under the VCP, most of the constraints for completing real estate transactions at those sites are eliminated. As a result, many unused or underused properties may be restored to economically productive or community beneficial uses.

WMRF Recycling Facilities

**VERSION DATE: 3/2009** 

This listing of recycling facilities is provided by the Texas Commission on Environmental Quality's Recycle Texas Online service. The company information provided in this database is self-reported. Since recyclers post their own information, a facility or company appearing on the list does not imply that it is in compliance with TCEQ regulations or other applicable laws.

**EAP** Edwards Aquifer Permits

**VERSION DATE: 7/2006** 

This database, maintained by the Texas Commission on Environmental Quality, contains Edward Aquifer permits.

**INDIANRES** Indian Reservations

**VERSION DATE: 1/2000** 

The Department of Interior and Bureau of Indian Affairs maintains this database that includes American Indian Reservations, off-reservation trust lands, public domain allotments, Alaska Native Regional Corporations and Recognized State Reservations.

**LUSTR06** Leaking Underground Storage Tanks On Tribal Lands

**VERSION DATE: 5/2009** 

This database, provided by the United States Environmental Protection Agency (EPA), contains leaking underground storage tanks on Tribal lands located in EPA Region 6. This region includes the following states: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

**ODINDIAN** Open Dump Inventory on Tribal Lands

VERSION DATE: 11/2006

This Indian Health Service database contains information about facilities and sites on tribal lands where solid waste is disposed of, which are not sanitary landfills or hazardous waste disposal facilities, and which meet the criteria promulgated under section 4004 of the Solid Waste Disposal Act (42 U.S.C. 6944).

**USTR06** Underground Storage Tanks On Tribal Lands

**VERSION DATE: 5/2009** 

This database, provided by the United States Environmental Protection Agency (EPA), contains underground storage tanks on Tribal lands located in EPA Region 6. This region includes the following states: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

**AIRSAFS** 

Aerometric Information Retrieval System / Air Facility Subsystem

**VERSION DATE: 3/2009** 

The United States Environmental Protection Agency (EPA) modified the Aerometric Information Retrieval System (AIRS) to a database that exclusively tracks the compliance of stationary sources of air pollution with EPA regulations: the Air Facility Subsystem (AFS). Since this change in 2001, the management of the AIRS/AFS database was assigned to EPA's Office of Enforcement and Compliance Assurance.

BF

Brownfields Management System

**VERSION DATE: 4/2010** 

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. The United States Environmental Protection Agency maintains the activities, including grantee assessment, cleanup and redevelopment, of the various Brownfield grant programs through the Brownfields Management System database.

**BRS** 

Biennial Reporting System

**VERSION DATE: 1/2003** 

The United States Environmental Protection Agency (EPA), in cooperation with the States, biennially collects information regarding the generation, management, and final disposition of hazardous wastes regulated under the Resource Conservation and Recovery Act of 1976 (RCRA), as amended. The purpose of this report is to communicate the findings of EPA's Biennial Reporting System (BRS) data collection efforts to the public, government agencies, and the regulated community.

Currently, the EPA states that data collected between 1991 and 1997 was originally a part of the defunct Biennial Reporting System and is now incorporated into the RCRAInfo data system.

CDL

Clandestine Drug Laboratory Locations

**VERSION DATE: 8/2009** 

The U.S. Department of Justice ("the Department") provides this information as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments. The Department does not establish, implement, enforce, or certify compliance with clean-up or remediation standards for contaminated sites; the public should contact a state or local health department or environmental protection agency for that information.

**CERCLIS** 

Comprehensive Environmental Response, Compensation & Liability Information System

**VERSION DATE: 2/2010** 

CERCLIS is the repository for site and non-site specific Superfund information in support of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). This United States Environmental Protection Agency database contains an extract of sites that have been investigated or are in the process of being investigated for potential environmental risk.

**DNPL** 

**Delisted National Priorities List** 

**VERSION DATE: 2/2010** 

This database includes sites from the United States Environmental Protection Agency's Final National Priorties List (NPL) where remedies have proven to be satisfactory or sites where the original analyses were inaccurate, and the site is no longer appropriate for inclusion on the NPL, and final publication in the Federal Register has occurred.

**DOCKETS** 

**EPA Docket Data** 

**VERSION DATE: 12/2005** 

The United States Environmental Protection Agency Docket data lists Civil Case Defendants, filing dates as far back as 1971, laws broken including section, violations that occurred, pollutants involved, penalties assessed and superfund awards by facility and location.

DOD

Department of Defense Sites

**VERSION DATE: 12/2005** 

This information originates from the National Atlas of the United States Federal Lands data, which includes lands owned or administered by the Federal government. Army DOD, Army Corps of Engineers DOD, Air Force DOD, Navy DOD and Marine DOD areas of 640 acres or more are included.

EC

Federal Engineering Institutional Control Sites

**VERSION DATE: 3/2010** 

This database includes site locations where Engineering and/or Institutional Controls have been identified as part of a selected remedy for the site as defined by United States Environmental Protection Agency official remedy decision documents. A site listing does not indicate that the institutional and engineering controls are currently in place nor will be in place once the remedy is complete; it only indicates that the decision to include either of them in the remedy is documented as of the completed date of the document. Institutional controls are actions, such as legal controls, that help minimize the potential for human exposure to contamination by ensuring appropriate land or resource use. Engineering controls include caps, barriers, or other device engineering to prevent access, exposure, or continued migration of contamination.

**ERNS** Emergency Response Notification System

**VERSION DATE: 12/2009** 

This National Response Center database contains data on reported releases of oil, chemical, radiological, biological, and/or etiological discharges into the environment anywhere in the United States and its territories. The data comes from spill reports made to the U.S. Environmental Protection Agency, U.S. Coast Guard, the National Response Center and/or the U.S. Department of Transportation.

FRS Facility Registry System

**VERSION DATE: 6/2009** 

The United States Environmental Protection Agency's Office of Environmental Information (OEI) developed the Facility Registry System (FRS) as the centrally managed database that identifies facilities, sites or places subject to environmental regulations or of environmental interest. The Facility Registry System replaced the Facility Index System or FINDS database.

**FUDS** Formerly Used Defense Sites

**VERSION DATE: 9/2009** 

The 2008 FUDS inventory includes properties previously owned by or leased to the United States and under Secretary of Defense jurisdiction. The remediation of these properties is the responsibility of the Department of Defense.

HMIRS Hazardous Materials Incident Reporting System

**VERSION DATE: 4/2010** 

The HMIRS database contains unintentional hazardous materials release information reported to the U.S. Department of Transportation.

ICIS Integrated Compliance Information System (formerly DOCKETS)

**VERSION DATE: 3/2009** 

ICIS is a case activity tracking and management system for civil, judicial, and administrative federal Environmental Protection Agency enforcement cases. ICIS contains information on federal administrative and federal judicial cases under the following environmental statutes: the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act, the Emergency Planning and Community Right-to-Know Act - Section 313, the Toxic Substances Control Act, the Federal Insecticide, Fungicide, and Rodenticide Act, the Comprehensive Environmental Response, Compensation, and Liability Act, the Safe Drinking Water Act, and the Marine Protection, Research, and Sanctuaries Act.

ICISNPDES Integrated Compliance Information System National Pollutant Discharge Elimination

VERSION DATE: 3/2009

ICIS-NPDES is an information management system maintained by the United States Environmental Protection Agency's Office of Compliance to track permit compliance and enforcement status of facilities regulated by the National Pollutant Discharge Elimination System (NPDES) under the Clean Water Act. ICIS-NPDES is designed to support the NPDES program at

**LUCIS** Land Use Control Information System

the state, regional, and national levels.

**VERSION DATE: 9/2006** 

The LUCIS database is maintained by the U.S. Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

MLTS Material Licensing Tracking System

**VERSION DATE: 2/2010** 

MLTS is a list of approximately 8,100 sites which have or use radioactive materials subject to the United States Nuclear Regulatory Commission (NRC) licensing requirements.

NFRAP No Further Remedial Action Planned Sites

**VERSION DATE: 2/2010** 

This database includes sites which have been determined by the United States Environmental Protection Agency, following preliminary assessment, to no longer pose a significant risk or require further activity under CERCLA. After initial investigation, no contamination was found, contamination was quickly removed or contamination was not serious enough to require Federal Superfund action or NPL consideration.

NLRRCRAC No Longer Regulated RCRA Corrective Action Facilities

**VERSION DATE: 2/2010** 

This database includes RCRA Corrective Action facilities that are no longer regulated by the United States Environmental Protection Agency or do not meet other RCRA reporting requirements.

NLRRCRAG No Longer Regulated RCRA Generator Facilities

**VERSION DATE: 2/2010** 

This database includes RCRA Generator facilities that are no longer regulated by the United States Environmental Protection Agency or do not meet other RCRA reporting requirements. This listing includes facilities that formerly generated hazardous waste.

**NLRRCRAT** 

No Longer Regulated RCRA Non-CORRACTS TSD Facilities

**VERSION DATE: 2/2010** 

This database includes RCRA Non-Corrective Action TSD facilities that are no longer regulated by the United States Environmental Protection Agency or do not meet other RCRA reporting requirements. This listing includes facilities that formerly treated, stored or disposed of hazardous waste.

**NPDES** 

National Pollutant Discharge Elimination System

**VERSION DATE: 4/2007** 

Information in this database is extracted from the Water Permit Compliance System (PCS) database which is used by United States Environmental Protection Agency to track surface water permits issued under the Clean Water Act. Refer to the PCS and/or ICIS-NPDES database as source of current data.

**NPL** 

National Priorities List

**VERSION DATE: 2/2010** 

This database includes United States Environmental Protection Agency (EPA) National Priorities List sites that fall under the EPA's Superfund program, established to fund the cleanup of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action.

ODI

Open Dump Inventory

**VERSION DATE: 6/1985** 

The open dump inventory was published by the United States Environmental Protection Agency. An "open dump" is defined as a facility or site where solid waste is disposed of which is not a sanitary landfill which meets the criteria promulgated under section 4004 of the Solid Waste Disposal Act (42 U.S.C. 6944) and which is not a facility for disposal of hazardous waste. This inventory has not been updated since June 1985.

**PADS** 

PCB Activity Database System

**VERSION DATE: 2/2010** 

The PCB Activity Database System (PADS) is used by the United States Environmental Protection Agency to monitor the activities of polychlorinated biphenyls (PCB) handlers.

**PCS** 

Permit Compliance System

**VERSION DATE: 3/2009** 

The Permit Compliance System is used in tracking enforcement status and permit compliance of facilities controlled by the National Pollutant Discharge Elimination System (NPDES) under the

Clean Water Act and is maintained by the United States Environmental Protection Agency's Office of Compliance. PCS is designed to support the NPDES program at the state, regional, and national levels.

**PNPL** 

**Proposed National Priorities List** 

**VERSION DATE: 2/2010** 

This database contains sites proposed to be included on the National Priorities List (NPL) in the Federal Register. The United States Environmental Protection Agency investigates these sites to determine if they may present long-term threats to public health or the environment.

**RCRAC** 

Resource Conservation & Recovery Act - Corrective Action Facilities

**VERSION DATE: 2/2010** 

This database includes hazardous waste sites listed with corrective action activity in the RCRAInfo system. The Corrective Action Program requires owners or operators of RCRA facilities (or treatment, storage, and disposal facilities) to investigate and cleanup contamination in order to protect human health and the environment. The United States Environmental Protection Agency defines RCRAInfo as the comprehensive information system which provides access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS).

**RCRAG** 

Resource Conservation & Recovery Act - Generator Facilities

**VERSION DATE: 2/2010** 

This database includes sites listed as generators of hazardous waste (large, small, and exempt) in the RCRAInfo system. See RCRA Description page for more information. The United States Environmental Protection Agency defines RCRAInfo as the comprehensive information system which provides access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS).

**RCRAT** 

Resource Conservation & Recovery Act - Treatment, Storage & Disposal Facilities

**VERSION DATE: 2/2010** 

This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste in the RCRAInfo system. The United States Environmental Protection Agency defines RCRAInfo as the comprehensive information system which provides access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and

the Biennial Reporting System (BRS).

**RODS** Record of Decision System

**VERSION DATE: 5/2010** 

These decision documents maintained by the United States Environmental Protection Agency describe the chosen remedy for NPL (Superfund) site remediation. They also include site history, site description, site characteristics, community participation, enforcement activities, past and present activities, contaminated media, the contaminants present, and scope and role of response action.

SFLIENS CERCLIS Liens

**VERSION DATE: 2/2010** 

A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which United States Environmental Protection Agency has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties. This database contains those CERCLIS sites where the Lien on Property action is complete.

SSTS Section Seven Tracking System

VERSION DATE: 12/2006

The United States Environmental Protection Agency tracks information on pesticide establishments through the Section Seven Tracking System (SSTS). SSTS records the registration of new establishments and records pesticide production at each establishment. The Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires that production of pesticides or devices be conducted in a registered pesticide-producing or device-producing establishment. ("Production" includes formulation, packaging, repackaging, and relabeling.)

TRI Toxics Release Inventory

VERSION DATE: 12/2007

The Toxics Release Inventory, provided by the United States Environmental Protection Agency, includes data on toxic chemical releases and waste management activities from certain industries as well as federal facilities. This inventory contains information about the types and amounts of toxic chemicals that are released each year to the air, water, and land as well as information on the quantities of toxic chemicals sent to other facilities for further waste management.

**TSCA** Toxic Substance Control Act Inventory

VERSION DATE: 12/2002

The Toxic Substances Control Act (TSCA) was enacted in 1976 to ensure that chemicals manufactured, imported, processed, or distributed in commerce, or used or disposed of in the

United States do not pose any unreasonable risks to human health or the environment. TSCA section 8(b) provides the United States Environmental Protection Agency authority to "compile, keep current, and publish a list of each chemical substance that is manufactured or processed in the United States." This TSCA Chemical Substance Inventory contains non-confidential information on the production amount of toxic chemicals from each manufacturer and importer site.

APAR Affected Property Assessment Reports

**VERSION DATE: 1/2010** 

As regulated by the TCEQ, an Affected Property Assessment Report is required when a person is addressing a release of chemical of concern (COC) under 30 TAC Chapter 350, the Texas Risk Reduction Program (TRRP). The purpose of the APAR is to document all relevant affected property information to identify all release sources and COCs, determine the extent of all COCs, identify all transport/exposure pathways, and to determine if any response actions are necessary. The Texas Administrative Code Title 30 §350.4(a)(1) defines affected property as the entire area (i.e. on-site and off-site; including all environmental media) which contains releases of chemicals of concern at concentrations equal to or greater than the assessment level applicable for residential land use and groundwater classification.

**BSA** Brownfields Site Assessments

**VERSION DATE: 4/2010** 

The BSA database includes relevant information on contaminated Brownfields properties that are being cleaned.

CALF Closed & Abandoned Landfill Inventory

VERSION DATE: 11/2005

TCEQ, under a contract with Texas State University, and in cooperation with the 24 regional Council of Governments in the State, has located over 4,000 closed and abandoned municipal solid waste landfills throughout Texas. This listing contains "unauthorized sites". Unauthorized sites have no permit and are considered abandoned. The information available for each site varies in detail.

DCR Dry Cleaner Registration Database

**VERSION DATE: 4/2010** 

The DCR listing includes dry cleaning drop stations and facilities registered with the Texas Commission on Environmental Quality.

**GWCC** Groundwater Contamination Cases

VERSION DATE: 12/2008

This report contains a listing of groundwater contamination cases which were documented for the 2008 calendar year. Texas Water Code, Section 26.406 requires the annual report to describe the current status of groundwater monitoring activities conducted or required by each agency at regulated facilities or associated with regulated activities. The agencies reporting these contamination cases include the Texas Commission on Environmental Quality, Railroad Commission of Texas, Texas Alliance of Groundwater Districts, and Department of State Health

Services.

**HISTGWCC** 

Historic Groundwater Contamination Cases

**VERSION DATE: NR** 

This historic report contains all agency groundwater contamination cases documented from 1994 to 2007. The agencies that reported these contamination cases included the Texas Commission on Environmental Quality, Railroad Commission of Texas, Texas Alliance of Groundwater Districts, and Department of State Health Services.

**IHW** 

Industrial and Hazardous Waste Sites

**VERSION DATE: 3/2010** 

Owner and facility information is included in this database of permitted and non-permitted industrial and hazardous waste sites. Industrial waste is waste that results from or is incidental to operations of industry, manufacturing, mining, or agriculture. Hazardous waste is defined as any solid waste listed as hazardous or possesses one or more hazardous characteristics as defined in federal waste regulations.

**IOP** 

Innocent Owner / Operator Database

**VERSION DATE: 4/2010** 

Texas Innocent Owner / Operator (IOP) provides a certificate to an innocent owner or operator if their property is contaminated as a result of a release or migration of contaminants from a source or sources not located on the property, and they did not cause or contribute to the source or sources of contamination.

**LIENS** 

TCEQ Liens

**VERSION DATE: 4/2010** 

Liens filed upon State and/or Federal Superfund Sites by the Texas Commission on Environmental Quality.

**LPST** 

Leaking Petroleum Storage Tanks

**VERSION DATE: 4/2010** 

The Leaking Petroleum Storage Tank listing is derived from the Petroleum Storage Tank (PST) database and is maintained by the Texas Commission on Environmental Quality (TCEQ). This listing includes aboveground and underground storage tank facilities with reported leaks.

**MSD** 

**Municipal Setting Designations** 

**VERSION DATE: 2/2009** 

TCEQ defines an MSD as an official state designation given to property within a municipality or its extraterritorial jurisdiction that certifies that designated groundwater at the property is not used as potable water, and is prohibited from future use as potable water because that groundwater is contaminated in excess of the applicable potable-water protective concentration level. The prohibition must be in the form of a city ordinance, or a restrictive covenant that is enforceable by the city and filed in the property records. The MSD property can be a single property, multi-property, or a portion of property.

**MSWLF** 

Municipal Solid Waste Landfill Sites

**VERSION DATE: 3/2010** 

Sites listed within a solid waste landfill database may include active landfills and inactive landfills, where solid waste is treated or stored.

NOV

Notice of Violations

VERSION DATE: 12/2009

This database containing Notice of Violations (NOV) is maintained by the Texas Commission on Environmental Quality. An NOV is a written notification that documents and communicates violations observed during an inspection to the business or individual inspected.

**PIHW** 

Permitted Industrial Hazardous Waste Sites

**VERSION DATE: 3/2010** 

Owner and facility information is included in this database of all permitted industrial and hazardous waste sites. Industrial waste is waste that results from or is incidental to operations of industry, manufacturing, mining, or agriculture. Hazardous waste is defined as any solid waste listed as hazardous or possesses one or more hazardous characteristics as defined in federal waste regulations. Permitted IHW facilities are regulated under 30 Texas Administrative Code Chapter 335 in addition to federal regulations.

**PST** 

Petroleum Storage Tanks

**VERSION DATE: 4/2010** 

The Petroleum Storage Tank database is administered by the TCEQ (Texas Commission on Environmental Quality). Both Underground storage tanks (USTs) and Aboveground storage tanks (ASTs) are included in this report. Petroleum Storage Tank registration has been a requirement with the TCEQ since 1986.

**RRCVCP** 

Railroad Commission VCP and Brownfield Sites

**VERSION DATE: 3/2010** 

According to the Railroad Commission of Texas, their Voluntary Cleanup Program (RRC-VCP) provides an incentive to remediate Oil & Gas related pollution by participants as long as they did not cause or contribute to the contamination. Applicants to the program receive a release of liability to the state in exchange for a successful cleanup.

**RWS** 

Radioactive Waste Sites

**VERSION DATE: 7/2006** 

This TCEQ database contains all sites in the State of Texas that have been designated as Radioactive Waste sites.

SF

State Superfund Sites

**VERSION DATE: 1/2010** 

The state Superfund program mission is to remediate abandoned or inactive sites within the state that pose an unacceptable risk to public health and safety or the environment, but which do not qualify for action under the federal Superfund program (NPL - National Priority Listing). Information in this database includes any recent developments and the anticipated action for these sites.

SIEC01

State Institutional/Engineering Control Sites

**VERSION DATE: 4/2010** 

The Texas Risk Reduction Program (TRRP) requires the placement of institutional controls (e.g., deed notices or restrictive covenants) on affected property in different circumstances as part of completing a response action. In its simplest form, an institutional control (IC) is a legal document that is recorded in the county deed records. In certain circumstances, local zoning or ordinances can serve as an IC. This listing may also include locations where Engineering Controls are in effect, such as a cap, barrier, or other engineering device to prevent access, exposure, or continued migration of contamination.

**SPILLS** 

Spills Listing

**VERSION DATE: 12/2009** 

This Texas Commission on Environmental Quality (TCEQ) database includes releases of hazardous or potentially hazardous materials into the environment.

TIERII Tier I I Chemical Reporting Program Facilities

**VERSION DATE: 12/2007** 

The Texas Tier II Chemical Reporting Program in the Department of State Health Services (DSHS) is the state repository for EPCRA-required Emergency Planning Letters (EPLs), which are one-time notifications to the state from facilities that have certain extremely hazardous chemicals in specified amounts. The Program is also the state repository for EPCRA/state-required hazardous chemical inventory reports called Texas Tier Two Reports. This data contains those facility reports for the 2005 through the 2007 calendar years.

VCP Voluntary Cleanup Program Sites

**VERSION DATE: 4/2010** 

The Texas Voluntary Cleanup Program (VCP) provides administrative, technical, and legal incentives to encourage the cleanup of contaminated sites in Texas. Since all non-responsible parties, including future lenders and landowners, receive protection from liability to the state of Texas for cleanup of sites under the VCP, most of the constraints for completing real estate transactions at those sites are eliminated. As a result, many unused or underused properties may be restored to economically productive or community beneficial uses.

WMRF Recycling Facilities

**VERSION DATE: 3/2009** 

This listing of recycling facilities is provided by the Texas Commission on Environmental Quality's Recycle Texas Online service. The company information provided in this database is self-reported. Since recyclers post their own information, a facility or company appearing on the list does not imply that it is in compliance with TCEQ regulations or other applicable laws.

**EAP** Edwards Aquifer Permits

**VERSION DATE: 7/2006** 

This database, maintained by the Texas Commission on Environmental Quality, contains Edward Aquifer permits.

**INDIANRES** Indian Reservations

**VERSION DATE: 1/2000** 

The Department of Interior and Bureau of Indian Affairs maintains this database that includes American Indian Reservations, off-reservation trust lands, public domain allotments, Alaska Native Regional Corporations and Recognized State Reservations.

**LUSTR06** Leaking Underground Storage Tanks On Tribal Lands

**VERSION DATE: 5/2009** 

This database, provided by the United States Environmental Protection Agency (EPA), contains leaking underground storage tanks on Tribal lands located in EPA Region 6. This region includes the following states: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

**ODINDIAN** Open Dump Inventory on Tribal Lands

VERSION DATE: 11/2006

This Indian Health Service database contains information about facilities and sites on tribal lands where solid waste is disposed of, which are not sanitary landfills or hazardous waste disposal facilities, and which meet the criteria promulgated under section 4004 of the Solid Waste Disposal Act (42 U.S.C. 6944).

**USTR06** Underground Storage Tanks On Tribal Lands

**VERSION DATE: 5/2009** 

This database, provided by the United States Environmental Protection Agency (EPA), contains underground storage tanks on Tribal lands located in EPA Region 6. This region includes the following states: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

### RCRA DESCRIPTIONS

### Acronyms

RCRAG - Generator

**RCRAT** - Treatment, Storage & Disposal (Non-Corracts)

RCRAC - Corrective Action

### **Generator Types**

#### **Large Quantity Generators**

- Generate 1,000 kg or more of hazardous waste during any calendar month; or
- Generate more than 1 kg of acutely hazardous waste during any calendar month; or
- Generate more than 100 kg of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill, into or on any land or water, or acutely hazardous waste during any calendar month; or
- Generate 1 kg or less of acutely hazardous waste during any calendar month, and accumulate more than 1kg of acutely hazardous waste at any time; or
- Generate 100 kg or less of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill, into or on any land or water, of acutely hazardous waste during any calendar month, and accumulated more than 100 kg of that material at any time.

### **Small Quantity Generators**

- Generate more than 100 and less than 1000 kilograms of hazardous waste during any calendar month and accumulate less than 6000 kg of hazardous waste at any time; or
- Generate 100 kg or less of hazardous waste during any calendar month, and accumulate more than 1000 kg of hazardous waste at any time.

### **Conditionally Exempt Small Quantity Generators**

- Generate 100 kilograms or less of hazardous waste per calendar month, and accumulate 1000 kg or less of hazardous waste at any time; or
- Generate one kilogram or less of acutely hazardous waste per calendar month, and accumulate at any time:
  - 1 kg or less of acutely hazardous waste; or
  - 100 kg or less of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill, into or on any land or water, or acutely hazardous waste; or
- Generate 100 kg or less of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill, into or on any land or water, or acutely hazardous waste during any calendar month, and accumulate at any time:
  - 1 kg or less of acutely hazardous waste; or
  - 100 kg or less of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill, into or on any land or water, of acutely hazardous waste.

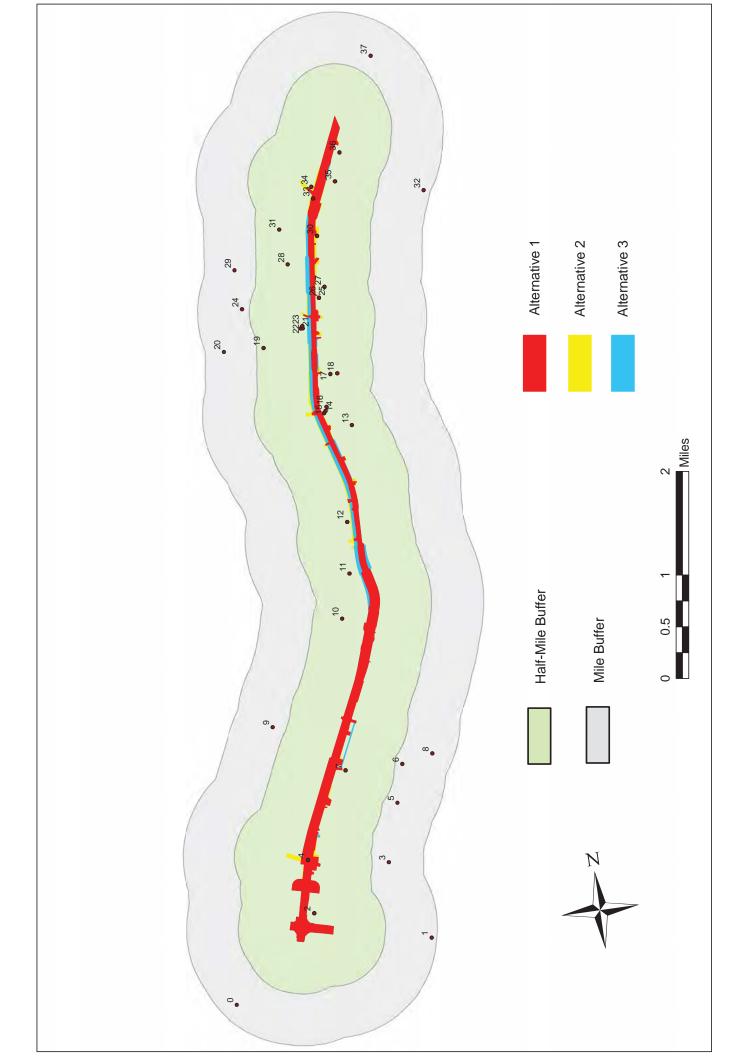

Note: Descriptions also apply to No Longer Regulated RCRA sites (NLRRCRAG, NLRRCRAT, and NLRRCRAC)

Appendix H: Regulatory Database Search Summary - Hazardous and Regulated Materials

Database	Database Description	Search Radius	No. of
	Federal Listings		
Aerometric Information Retrieval System/Air Facility Subsystem (ATRSAES)	Tracks compliance with stationary source air pollution EPA regulations	US 281 Project Corridor	0
Biennial Reporting System (BRS)	Hazardous waste regulated under the Resource Conservation and Recovery Act of 1976 (RCRA)	US 281 Project Corridor	0
Clandestine Drug Laboratory Locations (CDL)	Locations where law enforcement reported the presence of clandestine drug laboratory chemicals	US 281 Project Corridor	0
EPA Docket Data (DOCKETS)	History of civil cases related to violation of hazardous materials laws and superfund awards by facility and location	US 281 Project Corridor	0
Federal Engineering Institutional Control Sites (EC)	Sites where engineering and/or institutional controls are the selected remedy to prevent access, exposure and/or migration of contamination	US 281 Project Corridor	0
Emergency Response Notification System (ERNS)	Releases of oil, chemical, radiological, biological and/or etiological discharges into the environment	US 281 Project Corridor	0
Facility Registry System (FRS)	Facilities, sites, or places subject to environmental regulations or of environmental interest	US 281 Project Corridor	18
Hazardous Material Incident Reporting System (HMIRS)	Unintentional hazardous materials release information	US 281 Project Corridor	0
Integrated Compliance Information System (ICIS)	Civil, judicial, and administrative federal EPA enforcement cases.	US 281 Project Corridor	1
National Pollutant Discharge Elimination System (NPDES)	Tracks surface water permits issued under the Clean Water Act.	US 281 Project Corridor	0
Integrated Compliance Information System National Pollutant Discharge Elimination System (ICISNPDE)	Compliance and enforcement status of facilities regulated by the NPDES under the Clean Water Act	US 281 Project Corridor	0
Material Licensing Tracking System (MLTS)	Sites which have or use radioactive materials subject to the US Nuclear Regulatory Commission licensing requirements.	US 281 Project Corridor	0
PCB Activity Database System (PADS)	Monitors the activities of polychlorinated biphenyls (PCBs) handlers.	US 281 Project Corridor	0
Permit Compliance System (PCS)	Tracks enforcement status and permit compliance of facilities controlled by NPDES under the Clean Water Act	US 281 Project Corridor	0
Comprehensive Environmental Response, Compensation & Liability Information System (CFRCLIS)	Non-site specific Superfund information	½ mile from US 281 Project Corridor	0
CERCLIS LIENS (SFLIENS)	Superfund sites where a lien on the property was executed to fund investigation	US 281 Project Corridor	0
Section Seven Tracking System (SSTS)	Tracks establishments that produce pesticides or pesticide devices including formulation, packaging, repackaging and relabeling.	US 281 Project Corridor	0
Toxic Release Inventory (TRI)	Type and amount of toxic chemicals released each year to the air, water and land for certain industries as well as amount sent to other facilities for further waste management.	US 281 Project Corridor	0
Toxic Substance Control Act Recovery (TSCA)	List of each chemical substance manufactured or process in the US and amount of toxic chemical used at each manufacturer and importer site	US 281 Project Corridor	0
No Longer regulated RCRA Generator Facilities (NLRRCRAG)	RCRA Generator facilities (those that generated hazardous waste) that are no longer regulated by the EPA	US 281 Project Corridor	0
Brownfields Management System (BF)	Location of Brownfield site assessments, clean-ups and re-developments	½ mile from US 281 Project Corridor	0
Land Use Control Information System (LUCIS)	Former Base Realignment and Closure (BRAC) properties	½ mile from US 281 Project Corridor	0
Database	Database Description	Search Radius	No. of Sites
No Further Remedial Action Planned Sites (NFRAP)	Sites deemed by the EPA to no longer pose a significant risk or require further action	½ mile from US 281 Project Corridor	0
No Longer Regulated RCRA Non-Corrective Action TSD Facility (NLRRCRAT)	Facilities that formerly treated, stored or disposed of hazardous materials that are no longer regulated by the EPA under RCRA	½ mile from US 281 Project Corridor	0
Open Dump Inventory (ODI)	Facility or site where solid waste is disposed of which is not a sanitary landfill or a facility for disposal of hazardous waste	½ mile from US 281 Project Corridor	0
Resource Conservation & Recovery Act - Treatment, Storage & Disposal Facilities (RCRAT)	Non-corrective action sites listed a treatment, storage and disposal facilities of hazardous waste	½ mile from US 281 Project Corridor	0
Delisted National Priorities List (DNPL)	Sites where remedies have proven satisfactory or are no longer appropriate for the National Priorities List	1 mile from US 281 Project Corridor	0
Department of Defense Sites (DOD)	Properties owned by the Department of Defense	1 mile from US 281 Project Corridor	0
Formerly Used Defense Sites (FUDS)	Property previously owned/leased to the US under the jurisdiction of the Secretary of Defense	1 mile from US 281 Project Corridor	0
No Longer Regulated RCRA Corrective Action Facilities (NLRRCRAC)	Facilities that required corrective action in the past under the RCRA, that are no longer regulated by the EPA	1 mile from US 281 Project Corridor	0
National Priorities List (NPL)	EPA Superfund sites that are the most serious uncontrolled or abandoned hazardous waste sites	1 mile from US 281 Project Corridor	0
Proposed National Priorities List (PNPL)	Sites proposed to be added to the National Priorities List	1 mile from US 281 Project Corridor	0
Resource Conservation and Recovery Act - Corrective Action	Sites where(investigation and deanup is required in order to protect human health and the environment, as regulated by RCRA	1 mile from US 281 Project Corridor	0

Facilities (RCRAC)			
Record of Decision System (RODS)	Documents that describe EPA decisions made for NPL Superfund site remediation	1 mile from US 281 Project Corridor	0
	State Listings		
Groundwater Contamination Cases (GWCC)	Listing of groundwater contamination cases (2008)	US 281 Project Corridor	0
Historic Groundwater Contamination Cases (HISTGWCC)	Listing of groundwater contamination cases (1994-2007)	US 281 Project Corridor	0
TCEQ LIENS (LIENS)	Liens filed on State/Federal Superfund sites by Texas Commission of Environmental Quality (TCEQ)	US 281 Project Corridor	0
Municipal Setting Designations (MSD)	Designation that groundwater is not potable because contamination is in excess of potable-water protective concentration levels	US 281 Project Corridor	0
Notice of Violations (NOV)	Violations issued by TCEQ during inspection of a business or individual property	US 281 Project Corridor	8
State Institutional/Engineer Control Sites (SIEC01)	Location where engineering controls are in effect such as a cap, barrier, other device to prevent access, exposure or migration of contamination	US 281 Project Corridor	0
Spills Listing (SPILLS)	Releases of hazardous or potentially hazardous materials into the environment	US 281 Project Corridor	1
Dry Cleaner Registration Database (DCR)	Dry cleaning drop stations and facilities registered with TCEQ	1/4 mile from US 281 Project Corridor	5
Industrial and Hazardous Waste Sites (IHW)	Permitted and non-permitted industrial and hazardous waste site. Industrial waste includes waste resulting from industry, mining or agriculture	1/4 mile from US 281 Project Corridor	2
Permitted Industrial Hazardous Waste Sites (PIHW)	Permitted industrial and hazardous waste sites	1/4 mile from US 281 Project Corridor	0
Petroleum Storage Tanks (PST)	Underground and aboveground petroleum storage tanks registered with TCEQ	1/4 mile from US 281 Project Corridor	12
Affected Property Assessment Reports (APAR)	On and off-site property which contains releases of chemicals of concern at concentrations equal to or greater than levels applicable for residential land use and groundwater classification	½ mile from US 281 Project Corridor	0
Brownfield State Assessments (BSA)	Brownfield properties that are being cleaned	1/2 mile from US 281 Project Corridor	0
Closed and Abandoned Landfill Inventory (CALF)	Closed or abandoned solid waste landfills including unauthorized sites	1/2 mile from US 281 Project Corridor	0
Innocent Owner/Operator Database (IOP)	Contamination of property that results from release or migration of contaminants from a source not located on the property	1/2 mile from US 281 Project Corridor	1
Leaking Petroleum Storage Tanks (LPST)	Underground and aboveground petroleum storage tanks with reported leaks	1/2 mile from US 281 Project Corridor	4
Municipal Solid Waste Landfill Sites (MSWLF)	Active and inactive landfills where solid waste is treated or stored	1/2 mile from US 281 Project Corridor	0
Railroad Commission VCP and Brownfield Sites (RRCVCP)	Properties/Brownfield sites that have been cleaned of oil and gas pollution	1/2 mile from US 281 Project Corridor	0
Radioactive Waste Sites (RWS)	Designated radioactive waste sites	1/2 mile from US 281 Project Corridor	0
TIER II Chemical Reporting Program Facilities (TIERII)	Inventory of facilities that have certain extremely hazardous chemicals and require emergency planning	1/2 mile from US 281 Project Corridor	12
Voluntary Cleanup Program Sites (VCP)	Unused or underused properties that are restored to economically productive or community beneficial uses through voluntary cleanup	½ mile from US 281 Project Corridor	0
Recycling Facilities (WMRF)	Self-reported list of recycling facilities	1/2 mile from US 281 Project Corridor	0
State Superfund Sites (SF)	Sites that pose an unacceptable risk to public health or the environment but which do not qualify for action under the federal Superfund program (NPL)	1 mile from US 281 Project Corridor	0
	Local Listings		
Edwards Aquifer Permits (EAP)	Database of permits to use the Edwards Aquifer	US 281 Project Corridor	7
	Tribal Listings		
Underground Storage Tanks on Tribal Lands (USTR06)	List of underground storage tanks on Tribal lands in AR, LA, NM, OK and TX	1/4 mile from US 281 Project Corridor	0
Leaking Underground Storage Tanks on Tribal Lands (LUSTR06)	List of leaking underground storage tanks on Tribal lands in AR, LA, NM, OK and TX	1/2 mile from US 281 Project Corridor	0
Open Dump Inventory on Tribal Lands (ODINDIAN)	Facilities and sites on Tribal lands where solid waste is disposed of, which are not sanitary landfills or hazardous waste disposal facilities	½ mile from US 281 Project Corridor	0
Indian Reservation (INDIANRES)	List of American Indian Reservations, off-reservation trust lands, public domain allotments, Alaska Native Regional Corporations and Recognized State Reservations	1 mile from US 281 Project Corridor	0
or Towns Council on Environmental Ouglity, 2010
